GNANA SUNDARAM

ISMS Lead Auditor ISO 27001 · Certified Cybersecurity Educator · PMP · Lean Six Sigma · AI Trainer
Management & Fintech Specialist · Agile / Scrum Coach · Enterprise Technology Coach

ICF Accreditation Status:
Currently progressing through the ICF Professional Certified Coach (PCC) credentialing pathway — full accreditation expected July 2026. All coaching engagements are delivered at PCC-level competency in alignment with ICF Core Competencies.

PROFESSIONAL SUMMARY

A results-driven Executive & Business Coach, Cybersecurity Consultant, and AI Trainer with a distinguished 20-year career in the Indian Navy — specialising in Hospital Administration. This military foundation instilled exceptional command of operational leadership, crisis management, large-scale project execution, and people development that now powers a high-impact coaching and consulting practice.

Specialising in Management and Fintech domains, and advancing toward ICF-PCC accreditation (July 2026), I partner with C-suite leaders, senior managers, Scrum Masters, and Fintech professionals to deliver measurable, lasting transformation — grounded in globally recognised frameworks and real-world delivery experience.

INDIAN NAVY – 20 YEARS OF SERVICE (HOSPITAL ADMINISTRATION)

Served with distinction in the Indian Navy for two decades, specialising in Hospital Administration across multiple naval medical establishments. This career encompassed strategic healthcare operations management, large-scale medical logistics and supply chain coordination, personnel leadership, regulatory compliance, procurement governance, and cross-functional project management — building the leadership foundation that underpins all current coaching and consulting work.

Key Areas of Naval Service

- Healthcare Operations Management — directing multi-department naval medical facilities at scale
- Logistics & Supply Chain — end-to-end medical procurement, inventory control, and distribution
- Personnel Leadership — commanding, mentoring, and developing diverse teams under operational pressure
- Regulatory Compliance & Audits — adherence to military, medical, and quality standards
- Crisis & Emergency Management — coordinating medical response in high-stakes operational scenarios
- Training & Capacity Building — designing and delivering institutional training programmes
- Budget & Resource Management — financial oversight of hospital operations and procurement cycles

CREDENTIALS & CERTIFICATIONS

ICF-PCC Candidate — July 2026	**ISMS Lead Auditor – ISO 27001**	**Certified Cybersecurity Educator**
PMP – Project Management Professional	**Lean Six Sigma (Green / Black Belt)**	**Agile / Scrum Master**

AI for Business Leaders – Trainer	ISO 9001 / 14001 / 45001 Auditor	SCM, Logistics & Warehouse Expert

DOMAIN SPECIALISATION — MANAGEMENT & FINTECH

Management Domain

- Corporate governance, strategic planning, and executive performance frameworks
- People leadership — succession planning, talent pipeline, and high-performance team building
- Operational excellence through Lean Six Sigma DMAIC and PMP governance structures
- Agile transformation — Scrum, SAFe, and Kanban rollout across management functions
- SCM, logistics, and warehouse management consulting informed by Naval operational experience

Fintech Domain

- Digital banking, payments ecosystem, and core banking modernisation coaching
- RegTech & Compliance — AML, KYC, GDPR, PCI-DSS awareness for leaders
- Fintech product management — backlog, roadmap, and sprint strategy for financial products
- AI & automation in financial services — fraud detection, credit scoring, robo-advisory
- Risk management frameworks (Basel III/IV, IFRS 9) for management and audit teams

- Experienced trainer in Axonius, specializing in asset visibility, cyber security asset management, and integration of disparate data sources into a unified platform.

1 · EXECUTIVE & BUSINESS COACHING (ICF-PCC PATHWAY)

Delivering coaching at PCC-level competency across executive leadership, business performance, and Fintech contexts — for C-suite leaders, senior managers, and high-potential pipeline talent.

Executive Grooming & Leadership Coaching

- Board readiness, executive presence, and gravitas for senior leaders in BFSI and management
- Leadership pipeline development — accelerating VP, Director, and Head-of-Function talent
- Influence, negotiation, and stakeholder management in high-stakes corporate environments
- Strategic decision-making under regulatory and market pressure in Fintech contexts

Business Performance Coaching

- Growth strategy, KPI design, and performance framework alignment
- Financial acumen coaching — P&L literacy, budget management, and commercial strategy
- People and culture — psychological safety, team effectiveness, and change leadership

Project, Process & Operations Coaching

- PMP frameworks — project governance, risk registers, WBS, and stakeholder management
- Lean Six Sigma — DMAIC methodology, process optimisation, and defect elimination
- SCM, Logistics & Warehouse Management — end-to-end supply chain coaching

2 · AGILE & SCRUM COACHING

A cornerstone of my practice, Agile and Scrum coaching is delivered at both practitioner and leadership levels — from foundational mindset through to full-scale Agile transformation, with a strong emphasis on integrating emerging technologies into modern delivery frameworks.

Agile Foundations & Mindset

- Agile Manifesto — 4 values and 12 principles applied to real business and Fintech contexts
- Shift from waterfall to Agile thinking — cultural transformation and leadership alignment
- Empirical process control — transparency, inspection, and adaptation across delivery teams
- Agile in regulated environments — compliance, auditability, and governance in banking and finance

Scrum Framework — Roles, Events & Artefacts

- **Product Owner:** backlog creation, prioritisation, user story writing, and Definition of Done
- **Scrum Master:** servant leadership, impediment removal, and Scrum event facilitation
- **Development Team:** self-organisation, cross-functional collaboration, and sprint commitment
- Sprint Planning — goal setting, capacity planning, backlog refinement, and task decomposition
- Daily Scrum — stand-up facilitation, blocker resolution, and team synchronisation
- Sprint Review — stakeholder demos, product increment acceptance, and feedback loops
- Sprint Retrospective — continuous improvement, team dynamics, and psychological safety
- Product Backlog — epic to story breakdown, story pointing, velocity tracking, and release planning

AI & Technology Integration in Project Delivery

My Agile coaching incorporates emerging AI capabilities into the full project delivery lifecycle — covering how project managers and Scrum practitioners can leverage intelligent tools for quality strategy, release planning, backlog management, team coaching, and stakeholder communication. This is woven into every aspect of the delivery framework rather than treated as a standalone topic.

- AI-enhanced planning — using intelligent tools for estimation, risk identification, and scheduling
- Quality & release strategy — AI-assisted defect management and continuous delivery pipelines
- Product Owner effectiveness — smarter backlog refinement and user story articulation
- Team performance & coaching — data-driven retrospectives and Agile health monitoring
- Scaling with fairness — responsible AI adoption across large, distributed Agile programmes

Delivery Flow — End to End

Scaling Agile Beyond Scrum

- SAFe (Scaled Agile Framework) — PI Planning, ART coordination, and portfolio Kanban
- Kanban — flow-based delivery, WIP limits, cumulative flow diagrams, and throughput metrics
- Agile for Fintech — compliance sprints, regulatory release windows, and API-first delivery

- OKRs aligned to Agile delivery — connecting team output to organisational strategy
- Agile coaching for leadership — executive Agile mindset, Agile HR, and finance operations

3 · CYBERSECURITY CONSULTANCY

Certified ISMS Lead Auditor (ISO/IEC 27001) and Certified Cybersecurity Educator — with particular depth in Fintech, banking regulatory compliance, and defence-sector information security.

- ISMS Design & Implementation — gap analysis, risk treatment plans, and policy architecture
- Trainer and Consultant in Banking Fraud Risk Management, AML, and Financial Crime Compliance, specializing in fraud detection
  methodologies, transaction monitoring, and investigation workflows.
  Expertise in EFRMS, fraud analytics, risk assessment, and regulatory compliance practices aligned with global banking standards and AML
  requirements.
- ISO 27001 Certification Readiness — Stage 1 and Stage 2 audit preparation and corrective action
- Fintech Cybersecurity — PCI-DSS readiness, Open Banking API security, cloud security posture
- Cybersecurity Awareness Training — phishing simulations, social engineering, GDPR/PDPA
- Incident Response & BCP/DRP — cyber crisis playbooks and business continuity coaching
- Third-Party & Vendor Risk Management — ISMS evaluation and SLA framework design
- **One Identity Manager -to strengthen Enterprise cybersecurity, identity governance and compliance (Hyundai, Coast Guard and different Edtech training companies)**

4 · AI TRAINING FOR MANAGERS & BUSINESS LEADERS

Pragmatic, business-led AI literacy programmes for senior managers, Fintech leaders, and management professionals — no coding background required.

- AI Strategy & ROI — building the business case for AI in management and Fintech
- Generative AI in Financial Services — underwriting, compliance, fraud detection, and customer experience
- Prompt Engineering for Productivity — practical use of ChatGPT, Copilot, and Claude
- AI-Powered Analytics — integrating AI capabilities into business intelligence workflows
- Responsible AI & Governance — bias, fairness, and model risk management for regulated sectors
- AI Roadmaps for Leaders — embedding AI into operations, HR, finance, and IT functions

5 · ISO CERTIFICATION COACHING & TRAINING

Full-spectrum ISO training from awareness through internal auditor and lead auditor levels — covering quality, environment, safety, information security, food safety, energy, and business continuity standards. Especially relevant for Fintech, healthcare, and management organisations preparing for certification.

- ISO 9001:2015 — Quality Management System (QMS)
- ISO 14001:2015 — Environmental Management System (EMS)
- ISO 45001:2018 — Occupational Health & Safety Management
- ISO/IEC 27001:2022 — Information Security Management System (ISMS)
- ISO 22000:2018 — Food Safety Management System
- ISO 50001:2018 — Energy Management System
- ISO 22301 — Business Continuity Management (critical for Fintech and banking)
- Integrated Management Systems (IMS) — multi-standard coaching and alignment

6 · ENTERPRISE TECHNOLOGY COACHING

Structured, outcome-focused coaching enabling professionals and teams to maximise ROI on enterprise platforms — with particular application in Fintech, banking operations, and management functions.

- **Power BI:** financial modelling, DAX formulas, KPI dashboards, regulatory reporting, Power Query
- **Salesforce:** Financial Services Cloud (FSC), Sales/Service Cloud, Flows, Einstein Analytics for BFSI
- **ServiceNow:** ITSM, GRC, HRSD, low-code workflow automation for banking and management operations
- **Tableau:** visual analytics, LOD calculations, Tableau Prep, compliance and risk dashboards
- **Apache Kafka:** event streaming concepts, producer/consumer design, real-time Fintech data pipelines
- **Camunda:** BPMN 2.0 process modelling, DMN rules, loan origination and claims workflow automation
- **Microsoft 365:** Teams governance, SharePoint, Power Automate, Power Apps, and Copilot M365
- **Additional Platforms:** SAP (logistics modules), Jira/Confluence, Monday.com, Zoho Suite, Miro

COACHING PHILOSOPHY & APPROACH

Grounded in ICF Core Competencies at PCC level — combining deep listening, powerful questioning, and evidence-based frameworks to co-create transformation. Engagements draw on:

- GROW Model, OSCAR Framework, and Solution-Focused Coaching methodologies
- 360-degree feedback and psychometric assessments (DISC, MBTI, Hogan)
- Balanced Scorecard, OKR alignment, and performance KPI co-design
- Action learning sets, peer coaching circles, and group facilitation
